

	RAD Studio Professional Edition	RAD Studio Enterprise Edition	JBuilder Professional Edition	JBuilder Enterprise Edition	Desktop	Server
<b>FEATURES AND STANDARDS COMPLIANCE (CONTINUED)</b>						
Small 1.3 MB database kernel deployment for .NET and Java	x	x	x	x	x	x
Safe and secure 100% managed code database kernel	x	x	x	x	x	x
Can be deployed as a service on Windows for both .NET and Java editions	x	x	x	x	x	x
Can be deployed as a daemon on Linux platforms			x	x	x	x
File format and network protocol compatibility across Windows and Java editions	x	x	x	x	x	x
Visual tools and error messages available in Japanese, German, French, and Spanish	x	x	x	x	x	x
Support for all dbExpress 4, ADO.NET, and Java isolation levels	x	x	x	x	x	x
Support for savepoints and parameter metadata for dbExpress 4, ADO.NET and Java	x	x	x	x	x	x
Support for many additional SQL keywords, including: ACTION, ANY, CALL, CHECK, EXCEPT, FOREIGN, INTERSECT, NO, REFERENCES, SOME, and USER	x	x	x	x	x	x
<b>WINDOWS EDITION ONLY FEATURES</b>						
Integrated into Delphi Data Explorer database console	x	x			x	x
<b>JAVA EDITION ONLY FEATURES</b>						
High availability Incremental backup and automatic failover for Java deployments			x	x	x	x
XA distributed transactions			x	x	x	x
Certified on broad range of Java Virtual Machines (JVM™), including JVM 1.5, 1.4, 1.3, 1.2, and 1.1			x	x	x	x
ISQL command line and script execution of SQL			x	x	x	x
JDBC connection pooling and statement caching			x	x	x	x
Pluggable storage for DataExpress data-access JavaBeans components			x	x	x	x
Direct binding of tables and columns to visual swing JavaBeans controls			x	x	x	x
