

Feature Matrix

-		D = Delphi®	C= C++Builder®	P = Delphi Prism <sup>**</sup>
INTEGRATED COMPILERS	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
Enhanced in 2010! High-performance 32-bit optimizing Delphi <sup>®</sup> native code compiler, including High performance x86 Assembler - 32-bit inline assembler supporting the Intel <sup>®</sup> x86 instruction set (including Intel Pentium <sup>®</sup> Pro, Pentium III, Pentium 4, Intel MMX, <sup>™</sup> SIMD, Streaming SIMD Extensions, SSE, SSE2, SSE3, SSE 4.1, SSE 4.2, AMD SSE4A and AMD <sup>®</sup> 3DNow! <sup>®</sup>	D	x	x	x
Enhanced in 2010! Embarcadero C++ Compiler 6.20 (bcc32)	С	х	х	x
Enhanced in 2010! ANSI/ISO C++ Standard language conformance and Boost support	С	х	х	х
New in 2010! #pragma once support that allows for better compatibility with MSVC and also acts as a header guard	С	x	x	x
New in 2010! [[deprecated]] attribute to flag constructs as deprecated	С	х	х	х
New in 2010! Enhanced compiler switches for XML representation of source code	С	х	х	х
New in 2010! Secure C library functions	С	х	х	х
Introduced in 2009! New language features from the next ANSI/ISO C++ standard	С	х	х	x
Enhanced in 2007! Linker error handling to improve memory management flexibility and resolution	С	х	х	х
INTEGRATED FRAMEWORKS, DESIGNERS, SDKS AND INSTALLERS				
Enhanced in 2010! VCL (Visual Component Library) for rapidly building Microsoft Windows applications now includes seamless Windows 7 support, and graceful fallback compatibility with Windows Vista, XP, and 2000	CD	x	х	х
Enhanced in 2010! Support for Windows Vista and Windows 7 API headers to fully exploit the latest Windows capabilities	CD	х	x	x
New in 2010! Support for Windows 7 Direct2D API	CD	х	х	х
VCL forms designer with live Snap-to hints and layout guidelines	CD	х	х	х
Unified Modeling Language® (UML®) designer	CD	х	х	х
Introduced in 2007! InstallAware installer technology allows for on the fly updating. IDE can automatically check for updates	CD	х	x	x
Introduced in 2007! .NET API access for C++	С	х	х	х
Introduced in 2009! Dinkumware STL v5.01 with iterator debugging	С	х	х	х
Introduced in 2009! ANSI/ISO standard library Technical Report 1	С	х	х	х
Enhanced in 2010! Integrated Boost libraries 1.39	С	х	х	х
INTEGRATED BUILD TOOLS AND PROJECT SUPPORT				
Introduced in 2009! Project Manager to display and organize the contents of your current project group and any project it contains	CD	х	x	х
Enhanced in 2010! Project Manager view menu for directory (nested), directory (flat) and list view of files in a project	CD	x	x	x
Enhanced in 2010! File manipulation and creation through the Project Manager facilities	CD	х	х	х
Improved IDE build times up to 5x!	С	х	х	х
Introduced in 2009! Optimize build times with pre-compiled header wizard	С	х	х	х
Introduced in 2009! Compiler option to treat warnings as errors	D	х	х	х
Introduced in 2007! Batch compilation – compile all like files in project at once for increased performance	С	х	x	x
Introduced in 2007! Flexible build system leveraging MSBuild with identical build process from the IDE or command line	CD	х	х	х
Introduced in 2007! Virtual folders to logically organize files in your project	С	х	х	х
stored in different locations		х	х	х
	С	~		
Enhanced in 2010! C++Builder 3 through 2009 project import	C D	×	х	х
			x	x

2/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
Introduced in 2009! Share option-sets between build configurations and between projects	CD	х	х	х
Introduced in 2007! Multi-select files in the Project Manager	CD	х	х	х
Introduced in 2007! File Browser - Windows shell integrated into the IDE	CD	х	х	х
Introduced in 2007! Build Events for pre-build, pre-link (C++ only), and post-build on project and file levels	CD	х	х	x
Project dependency checking	CD	х	х	х
IDE Studio personality indicator – shows which is active when multiple languages are available	CD	х	х	х
Project level build ordering	CD	х	х	х
File level build ordering	С	х	х	х
Build/Make from here - Make or build current project and all later projects	CD	х	х	х
Impdef utility provides information about DLLs	С	х	х	х
Implib utility to create import libraries from DLLs	C	x	x	x
Additional command line tools include Microsoft Resource Compiler, TDump utility to structurally analyze EXE, OJB, and LIB files, GREP tool, and MAKE tool	CD	x	x	x
Enhanced in 2010! Tlib utility for symbol case conversion to create extended libraries and modify page sizes	С	x	x	x
LANGUAGE AND RUNTIME LIBRARY FEATURES				
New in 2010! Object-oriented file and directory IO classes	CD	х	х	х
New in 2010! RTTI support for exposure of Methods, Fields, and Properties to support dynamic invocations and other meta-programming approaches	D	x	x	x
New in 2010! Custom attribute support for most code elements - types, fields, properties, methods and parameters	D	х	х	х
Enhanced in 2010! TStringBuilder for easier and faster string concatenation and manipulation	D	х	х	х
Enhanced in 2010! Generics with full RTL list and collection support	D	х	х	х
Enhanced in 2010! Support for localized resources	CD	х	х	х
Enhanced in 2010! Improved standard C++ heap manager	С	х	х	х
Enhanced in 2010! Optimized string/memory handling functions	С	х	х	х
Introduced in 2009! UnicodeString type as the default string type	D	х	х	х
Introduced in 2009! UnicodeString class	С	х	х	х
Introduced in 2009! TObject now contains virtual methods ToString, GetHashCode, and Equals.	CD	х	х	х
Introduced in 2009! Anonymous methods	D	х	х	х
Introduced in 2009! Exit procedure takes optional Result parameter	D	х	х	х
Introduced in 2009! Unicode character types char16_t and char32_t	С	х	х	х
Introduced in 2009! Move semantics with rvalue references	C	x	x	x
Introduced in 2009! Explicit conversion operators	C	x	x	x
Introduced in 2009! Static assertions	C	x	x	x
Introduced in 2009! Full type trait support	C	x	x	x
Introduced in 2009! Extern templates	C	x	x	X
Introduced in 2009! [[final]] and [[noreturn]] attributes	C	x	x	x
Introduced in 2009! Decitype keyword	C	× ×	x	X
Introduced in 2009! Scoped enumerations	C	× ×	X	X
Expression evaluation in compiler directives	CD	x	x	
Create reusable native 32-bit dynamically linked libraries (.DLL), COM controls (.OCX),	CD	^	^	х
and standalone executables	CD	х	х	х
Custom variants with support of your own data types, complex numbers, safe arrays, and passing variants through data sets	CD	х	х	х
Expanded variant support for Int64, unsigned types and Unicode strings	CD	х	х	х
PERSONAL DEVELOPER PRODUCTIVITY New in 2010! IDE Insight the fastest way to find and execute commands in the IDE with the transmitted	~~~			
the IDE with 1-button click	CD	Х	Х	Х
New in 2010! Code formatter and beautification for source code including block formatting	CD	Х	Х	Х
New in 2010! New Class Explorer gives configurable hierarchical view of class libraries throughout project. Also enables fast navigation to declarations and implementations, as well as easy addition of fields and methods.	С	x	x	x
New in 2010! Checkbox for Boolean types in the Object Inspector greatly enhancing readability	CD			
The object inspector greatly enhancing feadability		Х	Х	Х

/11	PERSONALITY	ARCHITECT	ENTERPRISE P	ROFESSIONA
New in 2010! Compilation can be now done in a background thread	CD	х	х	х
Enhanced in 2010! Property Editors for Date properties now use Calendar controls	CD	х	х	х
Enhanced in 2010! Improved search features in the editor and with Find tab integration	CD	х	х	х
Enhanced in 2010! Added capabilities and configuration to the File   Reopen menu	CD	х	х	х
nhanced in 2010! Use Unit interaction capabilities increased	D	х	х	х
ntroduced in 2009! New Class Explorer gives configurable hierarchical view of class libraries hroughout project. Also enables fast navigation to declarations and implementations, as well as easy addition of fields and methods.	D	x	x	x
ntroduced in 2009! Resource Manager greatly simplifies the addition of resources to projects	CD	х	х	х
ntroduced in 2009! Alpha channels in icons	CD	х	х	х
inhanced in 2010! Significant all-around IDE performance improvements	CD	х	х	x
ive Code Templates – dynamic scriptable templates streamlines coding complex and common structures and operations. Create or customize code templates and control the pehavior, code generation, and user experience of your templates. Surround Templates hat can wrap around selected code or text.	CD	x	x	x
ditor "Change Bar" indicates modified lines and saved modified lines	CD	х	х	х
Smart" Block completion – anticipates and gracefully adds block closures as you type	CD	х	х	х
/irtual form positioner for VCL designers in "docked" mode	CD	х	х	х
lot-key Tool Palette w/ Incremental search – find any component quickly	CD	х	х	х
Aulti-Target Project Manager supports all language projects, even within the same Project Group	CD	х	х	х
yncEdit – block-edit multiple instances of a symbol simultaneously	CD	х	х	x
listory Manager with automatic multi-level file backups, file differencing and restore	CD	х	х	х
DE Welcome Page – with fast access to recent projects, Embarcadero Developer Ietwork RSS news feeds, documentation, helpful links, updates, Weblogs, and more	CD	х	x	х
ntegrated QualityCentral – submit bug reports and feature requests to Embarcadero	CD	х	х	х
tructure Pane that displays hierarchical view of source code and provides a				
CL Object Treeview for quick navigation and manipulation of objects in the VCL designer	CD	Х	Х	Х
yntax Highlighting Open Tools API extension with built in support for JavaScript, HP, INI files and more	CD	х	х	х
bility to individually customize editor options for particular file types	CD	Х	Х	х
ull-featured Open Tools API allows for customization of the IDE through wizards and experts.	CD	х	Х	х
ymbol Insight – click to navigate to declarations and implementations	CD	х	Х	х
ode Insight – Faster performance and improved code and parameter completion provide n-the-fly member lists and parameter hints as you type	CD	х	х	х
Code Insight – Code completion for DTD described markup language ncluding HTML, WML, XHTML, and XSL	CD	х	х	х
nhanced in 2010! Code Folding configuration and properties	CD	Х	Х	х
ditor Gutter – easier to read with less clutter	CD	х	х	х
ode Completion for C/C++, Delphi, HTML, XHTML, XSL, and CSS	CD	х	х	х
class completion	D	Х	Х	х
ustom IDE desktop layout profiles with enhanced support for docked windows	CD	Х	Х	х
o-do lists keep your development on track	CD	Х	Х	х
lelp Insight – convenient tooltips provide help snippets as you develop	D	Х	Х	х
lew in 2010! Open Tools API generic version control support for building third party ersion control plug-ins to the IDE	C D	х	х	х
lew in 2010! Open Tools API access to code editor tabs exposed	CD	х	х	х
lew in 2010! Open Tools API ability to create dockable views exposed	CD	х	х	х
ITERNATIONAL DEVELOPMENT				
ntroduced in 2009! Unicode-enabled development environment	CD	Х	Х	х
nhanced in 2010! Unicode-enabled VCL	CD	Х	Х	х
ntroduced in 2009! UnicodeString type	CD	х	Х	х
lew in 2010! English, German, French and Japanese translations available for IDE menus nd dialogs, compiled units, resources, and source code	CD	х	х	х
lew in 2010! Easy switching between languages for IDE menus and dialogs and more	CD	х	х	х
troduced in 2009! Resource DLL Wizard to create Win32 resource DLLs for localization	CD	х	х	х
ntroduced in 2009! Integrated Translation Environment (ITE) to view and edit CL forms and resource strings	CD	х	х	х

4/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
Introduced in 2009! External Translation Manager (ETM) to view and edit language resource files outside the IDE	CD	х	x	x
Introduced in 2009! Translation Repository provides a database for translations that can be shared across projects	CD	x	x	X
REFACTORINGS	CD	~	~	~
Enhanced in 2010! Enhanced refactoring for generics support including rename,				
change parameter, and extract method	D	Х	Х	Х
Rename refactoring	CD	Х	Х	Х
Refactor driven "Find References"	CD	Х	Х	Х
Includes the following refactorings: Introduce Variable, Introduce Field, Inline Variable, Change Parameters, Safe Delete, Push Members Up / Down, Pull Members Up, Extract Superclass, Extract Interface, Move Members, Declare variable, Declare field, Extract method, Find unit/import namespace, Extract to resource string	D	х	х	x
Refactor driven "Find References"	D	х	х	х
UML MODELING				
Added for C++ in 2007! UML Code Visualization–at any time, get a UML model view of your source code	CD	х	х	x
Enhanced in 2010! Diagrams have an updated look and feel	CD	х	х	х
Added for C++ in 2007! Sequence diagrams	CD	x	x	
Added for C++ in 2007! Collaboration diagrams	CD	x	x	
Added for C++ in 2007! State charts	CD	x	x	
Added for C++ in 2007! Deployment diagrams	CD	x	x	
Added for C++ in 2007! Use case diagrams	CD	x	x	
Added for C++ in 2007! Activity diagrams	CD	х	х	
Added for C++ in 2007! Component diagrams	CD	x	x	
Added for C++ in 2007! Documentation generation	CD	х	х	
80+ Code Metrics that allow for deep understanding and static analysis of the health of the object domain	D	х	x	
Introduced for Delphi Professional in 2010! 10+ introductory level code Metrics for understanding the health of the object diagram	D			x
200+ Code Audits for deep code analysis to better understand the coding style and approach	D	х	х	
Introduced for Delphi Professional in 2010! 10 introductory level code audits for better code understanding	D			x
Import model from Rational® Rose (mdl import)	CD	х		
Added for C++ in 2009! Language neutral UML 1.5 modeling	CD	х		
Added for C++ in 2009! Language neutral UML 2.0 modeling	CD	х		
Enhanced in 2010! Transformation from language neutral UML 1.5 and UML 2.0 projects to source code projects	C D	x		
Enhanced in 2009! Design Patterns support, including GOF patterns	CD	x	х	
New in 2010! Custom design patterns support	CD	x	x	
Added for C++ in 2007! Diagram printing	CD	х	х	х
XMI 1.1 Import/Export	CD	х	х	
Added for C++ in 2009! Full two-way class diagrams with synchronization between code and diagrams	CD	x	x	x
OCL 2.0 support	CD	X	x	x
"UML in Color" profile	CD	x	x	x
Diagram hyper-linking and annotations	CD	x	x	x
INTEGRATED DEBUGGING	• -			
Full-featured debugger with color syntax highlighting	CD	х	х	х
New in 2010! Debugger visualizers to enable extended views of debugging data – build visualizers for your own data types	CD	x	x	x
New in 2010! Build debugger visualizers for your own data types	CD	X	x	x
New in 2010! Debugger visualizer for C++ Strings types	C	x	x	x
New in 2010! Debugger visualizer for TStrings	D	X	x	X
New in 2010! Debugger visualizer for TDateTime, TDate and TTime	C D	X	×	X
New in 2010! Multi-threaded-debugging the ability to selectively "freeze" and "Thaw" threads	CD	x	x	x
the assistance and a second grand and assist to second very model and that the add		~	~	~

5/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
New in 2010! Multi-threaded-debugging the ability to set a breakpoint for a selected thread	C D	х	х	х
New in 2010! Multi-threaded-debugging the ability to debug a selected thread	CD	х	х	х
Introduced in 2009! Support for Wait Chain Traversal in Vista and Windows 2008	CD	х	х	х
Introduced in 2007! Disassembly pane has "Show Opcodes" and "Show Addresses" local menu items	CD	х	х	x
Enhanced in 2010! New Debugger Options: "Scroll new events into view" and "Ignore non-user breakpoints"	CD	x	х	x
Introduced in 2007! Call Stack View shows a glyph indicating if the frame has debug info	CD	х	х	х
Enhanced in 2010! CPU view panes can be opened individually outside of an editor tab	CD	х	х	x
Enhanced in 2010! Integration between debugger views and panes making it easier to find and understand information	CD	x	x	x
Introduced in 2007! Call Stack view now automatically syncs the Locals view when you double click an item	CD	x	x	x
Introduced in 2007! Evaluator tooltip hints go transparent when the CTRL key is pressed, allowing you to see through them to the editor	CD	x	x	x
Expandable tooltip expression evaluation	C D	х	х	х
Enhanced in 2010! Expandable watches	C D	x	x	x
Expandable local variables view	C D	x	x	x
Selective symbol table loading	C D	X	x	X
Close implicitly opened files after debugging	CD	× ×	×	
	CD			×
Multi-select and copy to clipboard support in CPU view Ctrl-Click in editor gutter to enable/disable breakpoints	CD	X	X	×
Sort by load order in Modules view	CD	X	X	X
Set Next Statement local menu item in editor	CD	X	X	X
		x	X	X
Exception notification dialog: Break/Continue buttons, "Ignore exception type" checkbox	C D	х	Х	Х
Introduced in 2009! Break into debugger when an assert fires	C	х	Х	Х
Modules View sorting	C D	x	X	X
Remote debugging	C D	х	Х	Х
Enhanced! CodeGuard debugger support	C	х	Х	Х
Thread view displays status on all processes and threads under debugger control	CD	Х	Х	Х
CPU view for low-level debugging	CD	Х	Х	Х
Evaluator	CD	Х	Х	Х
Watch view supporting in place editing, checkbox enable/disabling, and the watch names separated from the values with columns	CD	x	х	х
Multi-tab watch view for logically grouping variables	CD	Х	Х	х
Breakpoint view with toolbar, in-place editing, and enable/disable checkbox	CD	х	Х	Х
Multi-process debugging for easy tracing through complex applications	CD	Х	Х	Х
Attach to and debug any process	CD	Х	Х	х
Detach from any process	CD	х	х	х
Run until return	CD	х	Х	Х
Advanced breakpoints with Tooltips, actions, and groups for complete debugging control	CD	х	х	Х
Breakpoint Data Aware Triggers	CD	х	х	Х
Debug spawned processes	CD	х	х	х
Debug Inspector for easily monitoring properties while debugging	CD	х	х	х
Enhanced in 2010! Event log view	CD	х	х	х
INTEGRATED UNIT TESTING				
Integrated unit testing with the DUnit testing framework	CD	х	х	Х
Unit test wizards for quick and easy unit test and unit test project creation	CD	х	х	х
Unit test code generation with full code to invoke each method	CD	х	х	х
Update existing unit test cases with new test methods	CD	х	х	х
Execute unit tests from project manager	CD	х	х	х

6/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
DOCUMENTATION				
Updated and Continually Enhanced in 2010! Completely revamped help system with class structure diagrams and thorough cross-linking	CD	x	х	х
Enhanced! Filtering and optimized searches. Integrated help system with MS Help 2	CD	х	х	х
DATABASE APPLICATION DEVELOPMENT AND CONNECTIVITY				
DBEXPRESS				
Enhanced in 2010! dbExpress <sup>®</sup> 4 database connectivity framework with connection pooling,				
tracing, and delegate drivers	CD	Х	Х	Х
Enhanced in 2010! Build delegate drivers to place your code between the application and the actual driver. Provide pre- and post-processing of all public methods and properties of the dbExpress 4 framework. Sample delegate drivers included	CD	х	x	х
Enhanced in 2010! dbExpress server connectivity to Embarcadero InterBase <sup>®</sup> 2007 and InterBase SMP 2009	CD	х	х	
New in 2010! dbExpress Server connectivity to Firebird 1.5 and 2.1	CD	х	х	
Enhanced in 2010! dbExpress server connectivity to Oracle® 10g and 11g	CD	х	х	
Enhanced in 2010! dbExpress server connectivity to Microsoft SQL Server® 2000, 2005, and 2008	CD	х	х	
dbExpress server connectivity to Informix <sup>®</sup> 9x (not Unicode-enabled)	CD	х	х	
dbExpress server connectivity to IBM DB2® 8.x (not Unicode-enabled)	CD	х	х	
dbExpress server connectivity to SQL Anywhere® 9 (not Unicode-enabled)	CD	х	х	
dbExpress server connectivity to Sybase® 12.5 (not Unicode-enabled)	CD	х	х	
Enhanced in 2010! dbExpress server connectivity to MySQL 4.1, 5.0 and 5.1	CD	х	х	
dbExpress server connectivity to Blackfish SQL	CD	х	х	
dbExpress local connectivity to InterBase, Blackfish SQL and MySQL	CD	х	х	х
Enhanced in 2010! Date/Time related functions are now locale dependent	CD	х	х	х
TClientDataset for managing and manipulating datasets in-memory	CD	х	х	х
dbGO® for ADO connectivity for Win32 (MDAC 2.8)	CD	х	х	х
Updated in 2010! InterBase Express components	CD	х	х	х
DATASNAP				
Enhanced in 2010! Create multi-tier database applications with DataSnap. Create middle tier application servers and connect to them from thin clients. Place business rules and write stored procedure code in Delphi on the middle tier.	CD	x	x	
Enhanced in 2010! New ServerMethods give complete control over functionality of middle tier. Call procedures from server as if the code were right on the client. Continue to use familiar IAppServer interface while expanding power of application servers. No COM dependencies				
in new DataSnap framework and now with TJSonValue pairs making it easier to pass data	CD	х		
Enhanced in 2010! Improved Session events for increased simplicity of a multi-tier implementation			Х	
	CD	х	x	
New in 2010! New DataSnap wizards from the Object Gallery to make server creation even easier	CD	x x		
New in 2010! Added support for REST(ful) interface and exposure from the Server			Х	
• 2	CD	х	x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server           New in 2010! Added support for HTTP and HTTPS communication protocol beyond	C D C D	x x	x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach	C D C D C D	x x x	x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream	C D C D C D C D	x x x x	x x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire	C D C D C D C D C D	x x x x x	x x x x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire         New in 2010! Added support for publishing DataSnap server through the WebBroker approach	CD CD CD CD CD CD	x x x x x x x	x x x x x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire         New in 2010! Added support for publishing DataSnap server through the WebBroker approach         New in 2010! Added lightweight Callbacks	CD CD CD CD CD CD CD CD	x x x x x x x x x x	x x x x x x x x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire         New in 2010! Added support for publishing DataSnap server through the WebBroker approach         New in 2010! Added lightweight Callbacks         Royalty Free! MIDAS/DataSnap® multi-tier deployment license	CD CD CD CD CD CD CD CD CD CD	x x x x x x x x x x x x	x x x x x x x x x x x x x	
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire         New in 2010! Added support for publishing DataSnap server through the WebBroker approach         New in 2010! Added lightweight Callbacks         Royalty Free! MIDAS/DataSnap® multi-tier deployment license         New in 2010! MIDAS.DLL source code included	CD CD CD CD CD CD CD CD CD CD	x x x x x x x x x x x x	x x x x x x x x x x x x x	x
New in 2010! Added support for REST(ful) interface and exposure from the Server         New in 2010! Added support for HTTP and HTTPS communication protocol beyond the local DataSnap (TCP/IP) approach         New in 2010! Added HTTP tunneling support for client code outside the firewall         New in 2010! Added Filter support for controlling and processing the data stream before it goes over the wire         New in 2010! Added support for publishing DataSnap server through the WebBroker approach         New in 2010! Added lightweight Callbacks         Royalty Free! MIDAS/DataSnap® multi-tier deployment license         New in 2010! 7/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
INCLUDED DATABASES				
Introduced in 2009! InterBase 2009 SMP Developer Edition–up to 20 users and 80 logical local connections	CDP	x	х	x
Introduced in 2007! Blackfish™ SQL with local connectivity, 1 user (4 connections), 512MB database size, 512MB RAM usage	CDP			x
Introduced in 2007! Blackfish SQL with remote connectivity, 5 users (20 connections), 2GB database size, 1GB RAM usage	CDP	x	х	
Introduced in 2007! Write Blackfish SQL Triggers and Stored Procedures in native Delphi code	D	х	х	х
Borland Database Engine for dBASE and Paradox	CD	х	х	x
REPORTING SOLUTIONS				
Updated in 2010! Nevrona Rave Reports <sup>®</sup> 7.7 Bundled Edition	CD	х	х	х
ADDITIONAL COMPONENTS AND TOOLS				
Updated in 2010! glyFX Icon Library – Embarcadero Edition	CD	х	х	х
Introduced in 2007! InstallAware Express CodeGear Edition	CD	х	х	x
Updated in 2010! TeeChart 8.0 charting components	CD	х	х	×
XML/SOAP WEB SERVICES DEVELOPMENT				
Enhanced in 2010! Support for SOAP 1.2 clients	CD	х	х	
BizSnap™ XML Transformation Tools and Components to easily build data exchanges between				
different XML formats and between XML and datasets	D	х	х	
BizSnap native Delphi XML bindings to simplify XML programming – access XML documents as Delphi objects	D	x	х	
Easily create XML/SOAP Web Services	D	х	х	х
BIZSNAP WEBSERVICES™				
Introduced in 2007! WSDL External Schema support	CD	х	х	х
Introduced in 2007! SOAP runtime support for optional and unbounded elements	CD	х	х	x
Introduced in 2007! SOAP features updated to support Amazon, eBay, MapPoint, and more	CD	x	х	×
Build server-side XML Web Services	CD	x	x	X
Build client-side XML Web Services	C D	x	x	X
WEB APPLICATION DEVELOPMENT	0.0	~	X	X
VCL FOR THE WEB (INTRAWEB)				
Updated in 2010! VCL for the Web – Complete RAD Web Application Framework with AJAX, Silverlight and full WYSIWYG VCL based Web page design w Server side C++ event handling – build Web apps like desktop VCL! 5 connection limit in Professional edition.	CD	x	x	Limited
INTERNET EXPRESS (INDY)				
Updated in 2010! Internet Express (INDY) components with more than 120 Internet protocols and standards including TCP, UDP, ICMP, SMTP, POP3, IMAP4, HTTP, NNTP, FTP, IPv6, and much more		x	x	x
WEBSNAP™ / WEB BROKER				
WebSnap™ component-based framework for developing Web Server applications (deprecated)	CD	х	х	
Server-side scriptable Web page components to easily interface WebSnap objects with Web site developer teams and scripters	CD	х	х	
Server-side scripting in WebSnap with JavaScript™ and VBScript	CD	х	х	
REMOTING AND APPLICATION CONNECTIVITY				
Introduced in 2009! Fully re-architected COM/ActiveX support now enables transparent access to IDL and code. Support now is source control friendly and allows total control over	_			
implementation of COM and ActiveX objects.	D	Х	Х	Х
Introduced in 2009! Wizards support wrapping existing VCL components as ActiveX controls	D	х	Х	Х
Import .NET assemblies as COM objects in Win32 VCL applications	CD	х	Х	Х
DCOM support	CD	х	х	х
DataSnap/MIDAS multi-tier database application framework				
	C D	х	х	
Advanced Type Library Editor now manages IDL, making COM development completely transparent.		x x	x	х
	CD			x
completely transparent. History Manager supports IDL, with automatic multi-level file backups, file differencing	C D C D	х	х

8/11	PERSONALITY	ARCHITECT	ENTERPRISE	PROFESSIONAL
VISUAL COMPONENT LIBRARY (VCL)				
VCL Form Designer to visually build native Windows applications	CD	Х	Х	Х
New in 2010! Integrated gesturing framework with multi-OS support for Windows 7, Vista, XP, and 2000	CD	х	x	х
New in 2010! Gesture Designer enables full control of all gesture design and interaction	CD	х	х	х
New in 2010! Gesture components (TGestureListView, TGesturePreview, TGestureRecorder) to build gesture creation and management into VCL applications	CD	х	х	х
New in 2010! Interactive multi-touch gestures for panning, zooming and rotating (requires multi-touch enabled OS)	CD	х	х	x
New in 2010! TTouchKeyboard a virtual keyboard for enhanced non-keyboard interface interactions that supports multiple locales and languages	CD	х	х	х
Introduced in 2009! Ribbon Controls components for creating Microsoft Office style ribbon interfaces including ribbon, ribbon application menu bar, combobox, toolbar and tips	CD	x	х	×
Introduced in 2009! New VCL Components: TCategoryPanelGroup, TButtonedEdit, TLinkLabel, TBalloonHint	CD	x	х	x
Enhanced in 2009! Enhancements to existing controls: TButton, TEdit, TProgressBar, TListView, TTreeView, TRichEdit, TImageList	CD	x	х	х
Enhanced in 2010! Theming support for Grid components	CD	х	х	х
Introduced in 2009! Full support for PNG image format in TImage and TImageList	CD	x	х	x
Enhanced in 2010! Icons can be assigned to Bitmaps	CD	x	x	х
New in 2010! Support for Windows Imaging Component (WIC) including JPEG, TIFF, GIF, PNG, BMP and HD Photo image formats. RAW camera formats (such as NRW, NEF, CRW, CR2, RW2, ARW, SR2, SRF, ORF, PEF and DNG) also supported with manufacturer supplied codecs.	CD	x	х	x
Introduced in 2009! Import Component wizard to import a type library, ActiveX control or .NET Assembly	CD	x	x	x
Introduced in 2009! New Component wizard to create the unit for a new component	CD	х	х	х
Object-oriented, fully extensible and reusable component and application architecture	CD	х	х	х
Visual Form Inheritance and Form linking to reduce coding and simplify maintenance	CD	х	х	х
Frames for building and reusing compound components	CD	х	х	х
Object Repository for storing and reusing forms, Data Modules, and experts	CD	х	х	х
Object Inspector to set component properties and events	CD	х	х	х
Introduced in 2007! Windows Vista look and feel including Windows Aero glassing effects	CD	х	х	х
Enhanced in 2009! Support for Windows theming of applications	CD	х	х	х
Standard components including frame, edit, menu, button, label, checkbox, list box, combo box, panel and action list	CD	x	x	x
Additional components including graphical buttons, image, shape, scroll box, splitter, buttoned edit, tabs, panels, action toolbar, and color map	CD	x	х	х
Win32 components including page control, image list, rich edit, progress bar, date time, calendar, toolbar, tree view and list view	CD	x	x	x
System components including timer, paint box, media player, OLE container and DDE	CD	х	х	х
Win 3.1 controls including tabbed notebook, file list box, directory list box, drive combo box, filter combo box and db lookup	CD	x	x	x
Dialog components including open, save, open/save picture, open/save text, font, color, print, printer setup, find, replace and page setup	CD	х	x	x
Data Access Controls including datasource, client dataset, dataset provider and XML transform	CD	х	х	х
Data Controls including dbgrid, navigator, text, edit, memo, image, listbox, combo box, checkbox, radiogroup, lookup and rich edit	CD	х	x	х
dbExpress components including SQL connection, SQL dataset, SQL query, SQL Stored Proc, SQL table, SQL server method, SQL monitor and simple dataset	CD	x	х	x
Internet components including web browser, dispatcher, page producer, dataset, query, page, table, TCP client and server and XML document	CD	х	x	x
Introduced in 2007! Vista Dialog components including file open, file save and task	CD	x	x	x
DataSnap Client components including provider connection, DCOM connection, socket connection, shared connection, local connection, web connection, object broker and connection broker	CD	X	x	x
Sample components including gauge, color grid, spin button, spin edit, directory outline and calendar	CD	x	x	x
Indy components with more than 120 Internet protocols and Internet standards including TCP, UDP, ICMP, SMTP, POP3, IMAP4, HTTP, NNTP, FTP, IPv6, and much more	CD	x	x	x
